

11<sup>th</sup> Annual Indo German Exchange Program  
(phase II)

## Lantern making handout

*Introduction: Lantern (laalaten) is a beautiful wall hanging used to decorate homes on festivals*

*Instructions: Take a coloured paper and cut a 4 cm width strip from the edge of the paper, keep it for later. Fold the rest of the paper in half lengthwise and from the side of the fold start cutting from the folded edge to the other leaving some space on the other edge. Next we have to unfold the paper and join the paper in form of a roll, then attach the strip cut earlier on two ends to make a handle.*
